## ABOUT ME

I am a hardworking and motivated person, eager to learn and explore new technologies in the IT world. I focus on personal development and quickly adapt to new tools and solutions. I am responsible, reliable, and always committed to achieving my goals.

## IT EXPERIENCE

FORCOM Sp. z o.o.   Poznań, Poland

### Test Automation Eningeer

January 2021 - present

- prepare test scenarios to ensure functionality and performance meet project requirements
- create detailed and clear test cases for different project stages
- collaborate with the development team to identify key areas for testing
- update and maintain test documentation to ensure accuracy and consistency
- track and report test results, highlighting issues and recommending solutions
- maintain project documentation, ensuring it is up-to-date and easily accessible
- led the transition from FitNesse to Robot Framework, introducing a new testing solution and maintaining its stability
- developed smaller extensions and scripts in Python and Java to enhance test automation and streamline processes
- managed the CI/CD pipeline, ensuring smooth integration and deployment of new code changes
- tested REST APIs for data accuracy and operational performance
- conducted database testing, verifying SQL queries and data integrity
- performed performance testing to evaluate system speed and stability under load
- participated in manual testing, verifying functionality from an end-user perspective

Energy On Site +   Saragossa, Spain
